

2010 Updates (Through December 31, 2010)

Fifteen **CONFERENCES** (highlighted below) were added in December, bringing the 2010 total to 103, the first year the Index has reached the 100 Conference mark. Each year new expansion areas are considered and this year Environmental Health, Occupational Health & Safety, and Emergency Management additions were made with 7 new journals – Environmental Health & Safety Today (EH&S), Environmental Health Perspectives (EHP), Journal of Environmental Health(JEH), Journal of Occupational & Environmental Hygiene(JOEH), Occupational Health & Safety (OH&S) , Emergency Management (EmerMgt), and Journal of Emergency Management (JEM), along with 3 conferences on those topics. For 2010 the Index has 740 pages and over 18,500 article & paper titles indexed for this calendar year. The alternative energy emphasis was continued and expanded to 21 of 103 conferences and 13 of 68 publications indexed. An additional new publication, The Cooling Tower Institute Journal, was also added.

In the past 4 years the Index increased 250% in conferences included and 50% in journals. Growth by year has been:

Year	Journals	Conferences	Articles / Papers
2007	41	43	12,125
2008	47	51	13,125
2009	57	66	14,900
2010	68	103	18,500
Total	68	103+	58,650

Bookmark the Eppic Environmental & Alternative Energy Index as one of your sources for locating quick and complete information and answers. Make the Index a monthly read with your other favorite print or e-journals. Our information is broad, current, time-saving, professionally organized (including clarification of vague titles) and linked to home sites where full articles and papers are usually available. Try the **Free Look** to see the type & form of titles listed. In addition to 2007 titles, we're now adding 2008 since 2011 information will come this year. Please keep in mind per the above summary that each year's content is bigger and better. Also, be assured of our guarantee of no contact or follow-up (unless requested), and that no contact or log-on information is shared.
